

Paul V. Kushner, A.I.A.

Paul V. Kushner, A.I.A. is the Technical Manager of the PFCS Orange County, CA office. He is a licensed architect and a Certified Construction Contract Administrator. Paul has worked for over two decades in the construction, architectural services and construction defect litigation industry.

Paul has experience in the design, development and production of construction documents, construction administration, construction observation, code compliance, technical consultant coordination, property inspection and testing construction claims.

He also has a long history in building performance analysis including analyzing damage, performing testing, specifying and overseeing repairs, and testifying at numerous depositions, arbitrations and trials on a variety of construction issues.

Paul has utilized his unique work experience to provide extensive and exhaustive post-construction defect litigation architectural services and support for numerous multi-family residential projects in Southern California.

Paul continues to regularly deliver seminars on topics including building codes, building performance analysis, and repair strategies. He most recently presented “Expert Witness Testimony” to the Orange County Bar Association on April 16, 2009.
